

FXN 1617

FLEXIBLE NEON

SUSPENDED MOUNTING WIRE

Friendly Reminder – Please read instructions carefully before operation

Step 1

Mount the attachment of cable couplers to the ceiling with sufficient load-carrying capacity and tighten them with screws.

Step 2

Thread the stainless steel wire through the male screw of cable couplers and then connect to the mounted attachment of cable couplers.

Step 3

Insert the screw into the serrated aluminum profile to lock with the cable gripper sliding from the bottom slot of serrated aluminum profile.

Step 4

Thread the stainless steel wire through the bushing of cable gripper.

Step 5

Fix the light into the aluminum profile.

Step 6

Adjust the length of stainless steel wires to the desired height. Tighten the coupling nut and cut or roll up the excess stainless steel wires after the power-on test.
